UR Writing Center – WID.

Harvard University. Brief Guides to Writing in the Disciplines.

Driscoll, Dana Lynn. "Connected, disconnected, or uncertain: Student attitudes about future writing contexts and perceptions of transfer from first year writing to the disciplines." Across the Disciplines 8.2 (2011).

This entire issue provides perspectives on disciplinary approaches to writing. The journal publishes inter-disciplinary research focused on “writing and writing pedagogy in all their intellectual, political, social, and technological complexity.”

This entire issue is informative as it includes articles on writing in a Mathematics course, creating a vertical writing curriculum, and rethinking approaches to teaching grammar.
